Summary

Results-oriented Frontend Developer passionate about leveraging technology for positive societal impact. Proven track record in small to large-scale projects, working in both solo and 20+ member teams. Expertise in modern development, team collaboration, and impactful coding through rapid and agile development. Dedicated to fostering connections and building communities with a vision to someday revolutionize education with technology.

Skills

JavaScript • TypeScript • React • Next.js • Node.js • PostgreSQL • Git • Tailwindcss

Work Experience

Tech Lead / Fullstack Developer   Feb 2023 – Oct 2023 • 8 mos

ObscuraAI.com • Contract

Philippines

Technologies: React • Next.js • Tailwindcss • Prisma • Node.js

- Orchestrated end-to-end project planning, costing, research, and execution, slashing MVP timeline from 6 to 3 months via strategic use of microservices and serverless patterns.
- Integrated company products, boosting workflow efficiency by over 50% through streamlined communication and optimization.
- Fostered ongoing client communication, ensuring precise alignment with business requirements for a targeted user experience and interface.

Frontend Developer   Mar 2022 – Aug 2023 • 1 yr 5 mos

Caresharing • Full-time

Remote

Technologies: React • TypeScript • GraphQL • Ruby • React Native

- Resolved numerous backlogged issues/bugs, optimizing time and budget allocation for prioritizing new features, enhancing patient experience.
- Executed the conversion of Javascript to Typescript, achieving a 100% type-safe codebase. Rigorously tested changes to ensure comprehensive coverage and system stability.
- Collaborated with the team to implement innovative features for patient information recording and contributed to the redesign of patient and medical practitioner dashboards, propelling the product to become Netherland's leading medical system.

Frontend Developer Intern   Sep 2021 – Feb 2022 • 5 mos

Goodfrontend.dev Ltd • Internship

Remote

Technologies: React • Next.js • TypeScript • Styled Components • Storybook

- Headed a 3-person team in the reconstruction of the company website, serving as both Scrum Master and Frontend Developer.
- Developed a month-long Advanced Javascript curriculum for onboarding 2 interns, ensuring their successful internship experience.
- Implemented code consistency through PRs and advocated for reusable components via Storybook and Testing. Pioneered new development patterns through collaborative pair programming and team brainstorming.

Frontend Developer   Aug 2021 – Jun 2022 • 10 mos

Navigation North • Full-time

Remote

Technologies: React • Vue.js • Next.js • Laravel • Docker

- Created prototypes and proof of concepts using NextJS, Typescript, and GraphQL to facilitate product transition.
- Executed the development of front-end components for Thumbnail and Collaboration tools, including modals and alert systems.
- Prioritized 60% of responsibilities towards resolving bug and support tasks, significantly reducing backlog.
- Acquired proficiency in Docker and Laravel, extending capabilities beyond frontend tasks.
